**Important Notice for new
WA State Firearm Owners**

Background checks are required for all firearm sales and transfers, with some limited exceptions including sales or transfers to law enforcement agencies and officers acting within the course and scope of their employment or official duties (RCW 9.41.113). Background checks are to be performed through the Washington State Patrol Firearms Background Check Program, a centralized stated system, rather than through local law enforcement agencies. All background checks require a \$18 fee per WA State. A 10-day waiting period is required between the purchase and delivery of the firearm to the purchaser. (All firearms) An approved background check is required before delivering a firearm to the purchaser. Regardless if the wait is beyond 10 days. The purchaser must provide proof of having completed a recognized firearm safety training program within the last five years.
